Agricultural Business

Economics

Political Science

Areas of Expertise

- Market Research
- Data Collection
- Trade
- Export Markets

As a research intern at Decision Innovation Solutions, Holly assists with data collection and report writing, gathering market intelligence, and developing presentation materials.

Holly grew up on her family's farrow to finish hog farm in northeast Iowa. While her background is in pork production, she has gained a variety of other valuable experiences through internship opportunities.

In the summer of 2017, Holly completed an internship with Landus Cooperative where she expanded upon her knowledge of agronomy and the cooperative system. In 2018, Holly was the Legislative Intern for the Iowa Pork Producers Association which included six weeks spent working in Senator Charles Grassley's Washington, D.C. office.

Most recently, Holly spent 8 months as an International Marketing Intern for the National Pork Board. During this internship, Holly researched and analyzed export markets for U.S. pork, created communications content related to trade, and assisted with research projects. This newly developed research interest led Holly to pursue a role with DIS.

Holly currently attends Iowa State University with majors in Agricultural Business and Economics and a minor in Political Science. Holly will receive her bachelor's degree in the spring of 2020 and plans to pursue a Master of Science degree in Agricultural Economics.
