

Joy Das

Senior Research Analyst

Joy Das, Senior Research Analyst at Decision Innovation Solutions (DIS), conducts research and analyzes data to estimate economic impacts and develop forecasts. He prepares reports and formulate plans to address economic problems related to the impacts of international trade on the production and distribution of goods and services.

Joy has obtained a Bachelor's and a Master's degree in Economics from Jadavpur University, Kolkata, India. After that he worked as an executive at Confederation of Indian Industry, India. In 2015, Das completed a second MS in Renewable Natural Resources at Louisiana State University, Baton Rouge. Prior to joining Decision Innovation Solutions, he also completed the Ph.D. program in Agricultural Economics at Louisiana State University, Baton Rouge.

Joy Das has conducted economic research on general equilibrium trade models and market integrations. He has authored several research articles and published in scholarly journals such as the Forest Products Journal and the International Journal of Research in Social Sciences. His areas of expertise include international trade, new institutional economics and industrial organization.
