

Data Warehouse Architect

Contact

Education

Hutchinson Community College

Associate's Degree in Science

Areas of Expertise

- Developing Data Warehousing
- Microsoft Training in SQL, SSIS and SSAS

As Data Warehouse Architect for DIS, LaVerne is working with us as a consultant to enhance our data library. Proper collection of high-quality data is crucial to the research that we do on a daily basis.

LaVerne is a Kansas native where he worked for Kansas Farm Bureau in Manhattan, Kansas for 14 years. At Kansas Farm Bureau, he worked as a software developer and Data Warehouse Architect. He then continued with Iowa Farm Bureau as a Data Warehouse Architect where his primary goal was to develop an extensive multi-subject data warehouse for the economic research department at Iowa Farm Bureau.

LaVerne received his Associate's Degree in Science at Hutchinson Community College in Hutchinson, Kansas. He also has completed Microsoft training in SQL, SSIS, SSAS and Data Warehousing.
