As a Research Analyst II for Decision Innovation Solutions, Patricia Batres-Marquez is responsible for conducting economic data analysis and modeling to evaluate agricultural policies relevant to clients. Using her research expertise in agricultural economic policy analysis, Patricia generates information that assists clients in making informed decisions.

Patricia received a BS degree in Business Administration from Universidad Centroamericana “Jose Simeon Cañas” (UCA), El Salvador. She also earned a Master degree in Agricultural Economics from Kansas State University in Manhattan, Kansas.

Prior to joining Decision Innovation Solutions, Patricia worked for the Center for Agricultural and Rural Development (CARD) at Iowa State University where she gained substantial experience in data collection and database development, modeling, and analysis.

Patricia has conducted economic research to evaluate policies related to agriculture, food, nutrition, and risk. She has co-authored several research articles published in refereed journals such as the Journal of Food Distribution Research and the Journal of the American Dietetic Association.
